

During my 10 months in Wien I had so many and such a good memories that is really hard for me to choose between them, but this may be my top. From left to right:

1. This picture is from our first trip (*Ausflug*) for me and my project. We went to a park near our kindergruppe and we had so much fun; we even saw swans! [24.09.19]
2. Memories of me with my children after the kindergruppe, we went to a Chirstmas Market and drank *kinderpunsch* while eating chips [14.12.19]
3. Me and one of the good friends I met thanks to this project. The picture was taken in the fancy *Boku Ball* [31.01.20]
4. Mid-Term in Slazburg was so great! All the volunteers loved to be there, a week before the quarantine. [04.03.20]
5. One of the nights I enjoyed the most, me and the mothers of my *kigru* went to the single party of my colleague. Here is me in the *U-Bahn* with a tatoos that says «Team Bride» [19.02.20]
6. My last day in my kindergruppe with my colleagues and the children. The last week I couldn't stop crying, I really adore each one of the kiddos and families there and they were so nice to me; that's why I made a promise to come back once a year to visit them! [30.06.20]
7. Finally, a picture of me two days after my return home. Here, I tried my best to summarize what is the ESK for me:
«ESK is... the opportunity for selfdiscovering, meet new friends,
new cultures and, lastly, a new place to call Home»
