Mariam in Vienna

New Home and New Family

«ESK is... the opportunity to discover new exciting things of life and find a new place to call Home»

Since I've moved in Vienna completely different and exciting chapter of my life has started.

This journey would be impossible without all those interesting and motivated young people that I've met in the frame of this programme.

We became one unique friend group pretty easily and we had unforgettable time spent together.

We've been attending different interesting events, organised international dinners, celebrated holidays together which let us create the unforgettable memories for all of us.
