

Report by **Marina Abdelmaseh Sabil**  
European Solidarity Corps volunteer at **Wohngemeinschaft St.Martin**  
from **May 2022 to May 2023**

**One sentence about my project:**

Despite all the challenges and hardships, it will remain one of the most important experiences of my life.

**My tasks were...**

with people with special needs.

**One special moment was...**

My realization of how strong I am after going through situations that if they had happened to me one year ago, I would have completely collapsed.

**I learned...**

not to be afraid of the risk, because going out my comfort zone made the biggest changes in my personality and my life.

**Advice for future volunteers:**

- 1. If you plan to stay in Austria after your project, start to make a plan from your first month, especially if you're a non-EU citizen.
- 2. start learning German early, could be better before you come to Austria.
- 3. Don't be afraid of asking for a help if you need.
- 4. Enjoy and Discover yourself more.

travelling through Europe

Joining a dance group in Vienna in my free time
