

My name is Estibaliz Cadavid Lizarralde and I have been volunteering in Kulturhaus Brotfabrik in Vienna since the 1st of September of 2022 to the 31st of August of 2023. In this year I've been helping the Kulturhaus in so many different tasks: I've been the assistant and host of many events as: music concerts, art workshops, cooking workshops, film screenings... There I had the responsibilities from assisting people to work as a waitress or taking care of the materials. I also did some office work where I worked on the marketing and social media department. I designed posters and social media posts and help on the distribution of them. I even had the opportunity to create and curate a film festival which guided me into new projects and opportunities.

From the other side, in this year I met so many incredible people from all around the world who will be in my life and heart for ever. I traveled around Europe and lived with some of them and they help me through the many complicated situations I've lived in my volunteering year. They made this experience to be the best of my life and I'm so glad to be able of meeting them.

Even if I've been through some complicated situations since the beginning they made me strong and confident and even more living in a new country and culture. Furthermore, I gained experience on a field that I like which is art and culture, I lived in another language and city for one year and I met so many diverse people from different cultures and backgrounds. So, I recommend this experience to anyone who is also interested on that.
