

Volunteer report by Tatia
European Solidarity Corps volunteer at Grenzenlos – Interkultureller Austausch
from 02.05.2023 to 31.10.2023

I am Tatia Datashvili and I participated in ESC volunteering project. My host organization was Grenzenlos Interkultureller Austausch. They made my volunteering experience really special.

I was responsible for managing social media in the organization. I posted on the Tik-Tok page of the organization. I am proud that this social media of the organization was activated by my initiative and work.

I was involved in many interesting activities but the theatre camp was one of the most pleasant and memorable event for me, which gave me new skills in the field that always interested me.

I learned how to work in team, the management of householding independently. A lot of new things about the lifestyle of people in Austria, in Europe.

I would recommend that the volunteers make the most of their time to explore a new culture, and country, and build new relationships. Stay open to new experiences, and I wish them all the best in their endeavors!

Volunteering in Austria was one of the best experiences of my life
