

Hello Everyone,

My name is Zennur. I was a volunteer at "La Rueda" during the period of September 2022 to July 2023. This article narrates the unforgettable story of my 11-month volunteering experience, during which I had the opportunity to explore and immerse myself in Austrian culture. Throughout this journey, I made friends from diverse cultures and witnessed a myriad of cultural celebrations.

My volunteering project allowed me to embark on a journey to discover the traditions, cuisine, and beauty of Austria up close. This experience deepened my connection with the rich culture of this wonderful country.

During my volunteer work, I had the chance to meet fellow volunteers from all around the world. This experience enabled me to make friends from different cultures. Overcoming language barriers to communicate with new people and listening to their life stories enriched me with a profound cultural experience.

The cold Austrian winters were transformed into heartwarming moments through the love and hugs of the children at the kindergarten. The time spent with the children strengthened our bond, and their joy and energy were a daily inspiration.

During weekends, I explored the surroundings with my fellow volunteers. It was a perfect opportunity to savor new cultures and landscapes. Visiting historic Austrian towns and witnessing the breathtaking vistas of the Alps enhanced my experience.

This 11-month volunteering experience created some of the most unforgettable memories of my life. Such experiences, where people from different cultures come together to work as one, remind us of the vastness and diversity of the world. I hope that everyone gets the chance to experience something similar and enrich their lives through such experiences.

Thank you,  
Zennur Bozdamli
